## China New Borun Announces First Quarter 2016 Unaudited Financial Results

Beijing, China, May 26, 2016 – China New Borun Corporation (NYSE: BORN; “Borun” or the “Company”), a leading producer and distributor of corn-based edible alcohol in China, today announced its unaudited financial results for the first quarter ended March 31, 2016.

Mr. Jinmiao Wang, Chairman and Chief Executive Officer of Borun, commented on the results, “Although our first quarter top line was softer due to a shorter-than-planned production run, our gross margin expanded by 180 basis points to 12.2%, benefiting from a steeper decline in corn price than that of the average selling price (“ASP”) for edible alcohol. Additionally, we repaid RMB310 million in our Corporate Bond at the end of January and were able to cut interest expenses by nearly 50%, fueling 60% year-over-year growth in net profits, with net margin expanding to 5.2%, versus 2.8% in the same period of last year.”

“This February, the Shouguang government conducted a mandatory safety check at all chemical manufacturing facilities in the area, including the Company’s Shouguang facility. The safety check required the Company’s Shouguang facility to halt operations during inspection. Although our facility successfully passed the safety check, the actual shut down took longer than we had estimated, erasing more than 20% of the first quarter total production schedule. For the second quarter of 2016, we continue to see lower corn prices in the spot market; however, the ASP of edible alcohol and its by-products are also dropping, as some edible alcohol producers aggressively expand production in an attempt to capture greater short-term market share. We anticipate this may cause some short-term pressure to the overall ASP of edible alcohol, which may require us to temporarily reduce production volume, as we remain committed to preserving profitability,” Mr. Wang concluded.

### First Quarter 2016 Quick View

- Total revenue decreased 14.8% to RMB486.6 million (\$75.3 million<sup>1</sup>) from RMB570.9 million in the first quarter of 2015.
- Gross profit increased 0.5% to RMB59.5 million (\$9.2 million) from RMB59.2 million in the first quarter of 2015.
- Net income increased 60.0% to RMB25.3 million (\$3.9 million) from RMB15.8 million in the first quarter of 2015.
- Basic and diluted earnings per American Depositary Share (“ADS”) were RMB0.98 (\$0.15) for the quarter ended March 31, 2016. Each ADS represents one of the Company’s ordinary shares.

**First Quarter 2016 Financial Performance**

For the first quarter of 2016, revenue decreased by 14.8% year-over-year to RMB486.6 million (\$75.3 million) from RMB570.9 million in the same period of 2015. The decrease in revenue was mainly due to the temporary shutdown in the Company's Shouguang facility as the local government conducted a safety check for all the chemical manufacturing facilities in Shouguang city, as well as a sharp decrease in ASP for edible alcohol and its by-products.

Revenue breakdown by product lines is as follows:

- Revenue from edible alcohol decreased by 12.5% to RMB344.8 million (\$53.4 million) in the first quarter of 2016, compared to RMB394.2 million in the first quarter of 2015. The sales volume of edible alcohol in the first quarter of 2016 decreased by 4.0% year-over-year to 73,746 tons, and the average selling price of edible alcohol decreased by 8.9% year-over-year to RMB4,675 per ton.
- Revenue from DDGS Feed decreased by 28.7% to RMB88.4 million (\$13.7 million) in the first quarter of 2016, compared to RMB124.0 million in the first quarter of 2015. The sales volume of DDGS Feed in the first quarter of 2016 decreased by 16.5% year-over-year to 56,356 tons, and the average selling price decreased by 14.6% year-over-year to RMB1,569 per ton.
- Revenue from liquid carbon dioxide decreased by 20.7% to RMB3.4 million (\$0.5 million) in the first quarter of 2016, compared to RMB4.3 million in the first quarter of 2015. The sales volume of liquid carbon dioxide in the first quarter of 2016 decreased by 11.4% year-over-year to 23,048 tons, and the average selling price decreased by 10.5% year-over-year to RMB149 per ton.
- Revenue from crude corn oil decreased by 25.1% to RMB28.7 million (\$4.4 million) in the first quarter of 2016, compared to RMB38.3 million in the first quarter of 2015. The sales volume of crude corn oil in the first quarter of 2016 decreased by 23.5% year-over-year to 4,428 tons, and the average selling price decreased by 2.0% year-over-year to RMB6,479 per ton.
- Revenue from chlorinated polyethylene ("CPE") increased by 112.6% to RMB21.3 million (\$3.3 million) in the first quarter of 2016, compared to RMB10.0 million in the first quarter of 2015. The sales volume of CPE in the first quarter of 2016 increased by 113.6% year-over-year to 2,500 tons, while the average selling price decreased by 0.5% year-over-year to RMB8,506 per ton.

During the first quarter of 2016, gross profit increased by 0.5% to RMB59.5 million (\$9.2 million) from RMB59.2 million in the same period of 2015. Gross margin for the first quarter of 2016 increased to 12.2%, from 10.4% in the same period of 2015, which was primarily attributable to steeper decrease in cost of corn than ASP of edible alcohol and its by-products.

Operating income increased by 0.4% to RMB46.4 million (\$7.2 million) in the first quarter of 2016, from RMB46.2 million in the same period of 2015, primarily attributable to higher gross profit earned.

---

Selling expenses decreased by RMB0.1 million, or 9.8% to RMB1.1 million (\$0.2 million) in the first quarter of 2016, from RMB1.2 million in the same period of 2015.

General and administrative expenses increased by RMB0.2 million, or 1.9% to RMB12.0 million (\$1.9 million) in the first quarter of 2016, from RMB11.8 million in the same period of 2015.

Income tax expenses in the first quarter of 2016 were RMB8.4 million (\$1.3 million), representing an effective tax rate of 25.0%.

Net income increased by 60.0% to RMB25.3 million (\$3.9 million) in the first quarter of 2016, compared to RMB15.8 million in the same quarter of 2015. The increase in net income was primarily attributable to the decrease in interest expense of RMB12.1 million (\$1.9 million), as the Company repaid RMB310.0 million Corporate Bond in the first quarter of 2016.

In the first quarter of 2016, basic and diluted earnings per share and per ADS were RMB0.98 (\$0.15), and the Company had 25.7 million weighted average basic and diluted shares outstanding.

As of March 31, 2016, cash and bank deposits totaled RMB503.2 million (\$77.9 million), an increase of RMB7.6 million, compared with RMB495.6 million as of December 31, 2015. Cash flows generated from operating activities for the first quarter of 2016 were RMB143.0 million (\$22.1 million), compared with RMB14.1 million in the first quarter of 2015.

### Financial Outlook

The Shouguang government's safety check for all the chemical manufacturing facilities in Shouguang took longer than expected, causing the Company's Shouguang facility to shut down for an additional two weeks (approximately 16% of quarterly production schedule) in April 2016.

Reflecting the shorter production run and a lower ASP for edible alcohol and its by-products, the Company estimates that its revenue for the second quarter of 2016 will be in the range of RMB460 million (\$71.2 million) to RMB500 million (\$77.4 million), a decrease of approximately 30.6% to a decrease of 36.2% over the same quarter of 2015.

This guidance is based on the current market conditions and reflects the Company's current and preliminary estimates of market and operating conditions and customer demand, which are all subject to change.

### Conference Call

Borun's management will hold a corresponding earnings conference call and live webcast at 8:00 a.m. E.T. on Friday, May 27, 2016 (8:00 p.m. Beijing time on Friday, May 27, 2016) to discuss the results and highlights from the first quarter of 2016 and answer questions from investors. A webcast of the call will be available at <http://ir.chinanewborun.com>. Listeners may access the call by dialing:
